SKILLS

- HTML5 | CSS3 | SCSS
- Javascript | jQuery
- ASP.NET MVC | WPF | C#
- Microsoft SQL Server | SQL
- Git | GitHub

EDUCATION

B.Sc. IT

Graduated with grade A

B.N. Bandodkar College

Mumbai University

2014 – 2017

INTERESTS

Football | Movies | Music | Technology

PROFILE

I am a software developer with 3 years of work experience.

I am able to effectively self-manage during independent projects as well as collaborate as part of a productive team.

EXPERIENCE

SOFTWARE DEVELOPER   June 2018 – Present

KANTAR

- Improved data accuracy, and reduced time consumption by automating data cleaning processes with applications built using **.Net** framework
- Increased data security by creating a data encryption system with **Rijndael (AES)** algorithm, to keep data safe on premise and in transit
- Simplified the process of selecting respondents (for conducting interviews) from large centralised respondents data source, by making web platform based on **ASP.NET MVC**, to add conditions based on which respondents will be fetched
- Created web platform to conduct online interviews and send incentives to respondents, by integrating this platform with NIPO (for online surveys) and XOXODAY (for incentives) using their **APIs**
- Developed dashboard using **WPF** for creating tables and graphically represented data reports, which helped in easily analysing TV viewership trends and making faster decisions
